Project Management | Founder, VantageOS | Course Development & Media Production

Lloydminster, SK | 250-815-0170 | sdrmaster@outlook.com | frankpepper.com | vantageos.ca | linkedin.com/in/frankmpepper

SUMMARY

I'm building the future of project management in Canada. As founder of VantageOS, I'm designing an AI-native operating system for how Canadian construction and infrastructure projects are planned, approved, delivered and proven. That work rests on 20+ years of delivering projects in the field: running crews, managing subcontractors, and scheduling jobs across BC, Alberta and Saskatchewan, often while holding two or three roles at once. I hold 30.25 PMI professional development units, a diploma in Sound Design for Visual Media, and hands-on experience writing training curricula and producing video and audio.

KEY QUALIFICATIONS

- **Project delivery:** 20+ years of scheduling, crew leadership, subcontractor coordination, logistics and hazard control on residential, commercial, forestry and oilfield projects.
- **Project management education:** 30.25 PMI PDUs / contact hours from 27 courses by PMI Registered Education Provider #4101, plus Coursera's Foundations of Project Management, Project Initiation and Project Planning.
- **AI in project management:** designed task lifecycles, risk registers, stage gates, lessons-learned capture and human-in-the-loop controls for AI agents in VantageOS.
- **Training & media:** wrote a three-level Supervisor-Trainer curriculum with SOPs; trained in field recording, mixing, video capture and editing.

EXPERIENCE

Founder & Product Lead, VantageOS (vantageos.ca), Lloydminster, SK 2026 – Present

- Designing a Canada-first, AI-native operating system for project delivery in construction and public infrastructure: permitting, procurement, risk, compliance, safety and payments on one shared project record.
- Built governance for AI agents: routine actions run automatically, higher-risk actions need review, and critical actions need human sign-off recorded in an append-only log.
- Wrote a 24-month phased roadmap, a retrospective and lessons-learned module, and an investor thesis on the Canadian infrastructure market.

Founder & CEO, GroNorth (vertical farming) Jul 2019 – Present

- Founded and lead an agtech venture focused on food security and climate resilience; directed R&D for modular growing systems.
- Led the company end to end: product development, fundraising, team leadership and strategy. Wrote a business plan with SWOT, market research, cash-flow projections and a Supervisor-Trainer staffing model.

General Labourer / Loader Operator, Art Knapp Plantland, Kamloops, BC Feb 2024 – Jun 2025

- Ran loaders and forklifts for seasonal setup and material logistics; supported hardscaping, seasonal builds and customer service.

Ground Lead, Power Saw Operator & Trainee Faller, Vancouver Island forestry and tree service 2017 – 2023

- Ran ground operations on 4–5 tree-removal projects a month for a certified faller: rigging plans, drop zones, falling and escape-route planning, and hazard assessment.
- Organized remote camp logistics and helicopter sling-load staging for cedar salvage; bucked logs to mill specification. Produced all camera and GoPro media for the tree-service business.

Finance Manager & Senior Sales Consultant, Carco Auto Credit, Edmonton, AB Jul 2016 – Nov 2017

- Ran the full sales and financing process from cold call to delivery, processing 5+ new credit applications a day; led the dealership in deals submitted and funded with major lenders. Previously a top-ranked direct sales representative for Upstat Marketing (Jan – Jul 2016).

Service Advisor, Westridge GMC, Lloydminster, AB Jun 2013 – Nov 2014

- Diagnosed likely vehicle issues with customers, dispatched work orders to mechanics, and kept customers updated through each job.

Moving Foreman, Power Play Moving, Lloydminster, AB

Jul 2008 – Dec 2012

- Supervised crews and all customer relations on residential and commercial moves across Western Canada; prepared delivery schedules and load plans.

Construction Carpenter, Independent Contractor, Vancouver Island, Vernon, Kelowna, Lloydminster

Various years

- Framing, drywall, roofing, siding and structural layout on custom homes and a large retirement-community build, working from blueprints and engineered plans.

Motorhand / Derrick Hand, Tempco, Ensign, Trailblazer and Partner Drilling

2005 – 2008

- Conventional, coil-tubing and top-drive rigs on 10+ hour shifts; earned First Line Supervisor and oilfield safety tickets.

I have often held concurrent roles alongside contract and side work; the main positions are shown.

EDUCATION

Diploma, Sound Design for Visual Media, Vancouver Film School, Vancouver, BC (2015). Graduated top of class.

Pre-Employment Welding Foundation, Lakeland College, Lloydminster, AB (2005). Top of class.

Basic Welding, College of the Rockies, Invermere, BC (2004). Top academic standing.

High School Diploma, David Thompson Secondary School, Invermere, BC. Student Council President.

PROJECT MANAGEMENT TRAINING

PMI professional development: 30.25 PDUs / contact hours from 27 courses (PMI Registered Education Provider #4101, via LinkedIn Learning, 2020–2024), including Project Management Foundations and its Schedules, Budgets, Requirements and Ethics courses; Agile Requirements Foundations; Business Benefits Realization; Requirements Elicitation and Analysis; Strategic Planning Foundations; Leading with Vision.

Coursera (2022): Foundations of Project Management (ID AE23ASMP6QA6); Project Initiation: Starting a Successful Project (ID JGT6P6KJ4XPS); Project Planning: Putting It All Together (ID UV3MRNTHTHUL).

Other: 133 certificates in total across project management, business analysis, leadership, data and AI, finance, security and programming. Full list at frankpepper.com.

RESEARCH & RECOGNITION

Independent researcher, neurological drivers of idiopathic pulmonary fibrosis (Dec 2019 – present). Author of a hypothesis paper and research framework on the brain–thyroid–lung axis.

Fellow, International Sustainable Development Resource Centre, Next Generation Leaders Program, Geneva (2023 – present).

Expert panelist, Nobel Prize Summit, Washington, DC (2023).

SKILLS

Scheduling and planning; risk and hazard assessment; crew supervision; subcontractor coordination; stakeholder communication; budgeting and cash-flow planning; SOP and curriculum design; AI workflow design; Asana; Excel, Power BI and Tableau; SQL and Python fundamentals; recording, mixing and video editing.

SAFETY TICKETS

First Line Supervisor; Construction Safety Training; Fall Protection; Confined Space Entry and Rescue; H2S Alive; WHMIS; Standard First Aid / CPR; Class 5 licence.
